"As I left the abortion facility, I was told, "Everything will be alright. You can go on with your life. ... **My life was never the same.** ... I immediately went into a deep depression," declares Cindy from Louisiana. [Click here to read more of Cindy's story](#)

"I want women and men to know that you can never imagine the pain unless you've gone through it yourself. ... I don't want other women to experience the pain that I have had." declares Rebecca from Florida. [Click here to read more of Rebecca's story](#)

The Supreme Court is listening! Citing sworn testimony presented by The Justice Foundation, the Court upheld the federal ban on the gruesome, "partial-birth abortion", procedure. The Court stated, "Whether to have an abortion requires a difficult and painful moral decision" and is "fraught with emotional consequence."

The Court was right. Abortion has devastated us and millions of other women. The Supreme Court declared that abortion can cause "severe depression and loss of self-esteem," but [the Court also said there is no reliable data on the size of the problem](#) at this time. That's why we need your help to collect ONE MILLION VOICES.

Operation Outcry (www.operationoutcry.org), The Justice Foundation's project to reverse *Roe v. Wade*, has already collected over 2,300 legally admissible testimonies. If you have had an abortion, join ONE MILLION VOICES by filling out the Declaration form. [Click here to share your story.](#)

Operation Outcry is calling forth ONE MILLION VOICES to demonstrate the magnitude of the harm from abortion. This legal evidence (Declarations) will be taken to the Supreme Court when it considers abortion again. You can choose to use your full name, first name or initials only. Your personal contact information will always be kept confidential.

"Join with us, as together we are...Touching Hearts, Changing Lives, and Restoring Justice."
